generator, developing an alternating current of 2300 volt pressure, which is stiffed up to 40,000 volts at the main power plant and reduced to a 250-volt direct current through rotary converters at the mouth of the different mines, where it will be utilized to operate locomotives and mine machinery. All stationary motors, however, are driven by a high-voltage alternating current. The main power plant is equipped with two complete exciting units; the one is driven by a steam turbine, and the other by a 2300-volt induction motor.

The boiler plant consists of a battery of water-tube boilers, which are fired by mechanical stokers, and are almost automatic in their operation, only requiring one man and his helper to fire several thousand boiler horse-power.

This plant will be completed just as soon as the apparatus can be shipped from the factory; and when it is finished, it will be one of the best equipped electrical plants to be found anywhere.

## APPROPRIATION FOR GOVERNMENT BUILDING

Wednesday morning Representative John W. Langley at Washington wired the Pike hotel that the subcommittee of the House had reported favorably his request for a government building to be located at Pikeville. It is very probable he wired the same good tidings to friends at Paintsville also.

Mr. Langley's telegram read as follows:

"Got favorable report from subcommittee on Pikeville public building, with \$7,500 to purchase site."

There is little doubt that Mr. Langley has made an honest effort to secure the appropriation, and it has stirred many people into enthusiasm; but, figuring from the experience which the city of Ashland has had on this same line, the site in Pikeville will be purchased in about ten years, and we can begin to look for a government building in ten more. Bully for Mr. Langley. He certainly has done well.

## RAILROAD WORK MOVES ONWARD.

Elkhorn City, Ky., Jan. 23.—The Rheinhardt & Dennis Contracting Co. have practically completed the first two miles of their contract through the Breaks, from this place to Pool Point, and the heading through the Pool Point tunnel is also through. This means that the hardest part of the short but important line of railway now being built from here to Dante, Va., is finished, and that greater progress will now be made in the grading work.

Much is also being done towards the construction of the yard one mile below here. Rock crushers and sidings are being built. Great railway activity prevails, and it will now be but a short while until the route from the lakes to the coast will be completed, and double tracking will then be in order.

## TUSCULA.

It is being predicted here by the chimney corner prognosticators that we shall have the earliest spring that we have had in the last half century. It seems to be due to the early appearance of the ground hog.

For several days they have been stirring and their lonesome howls can be heard at night.

Mrs. Martha Hammond still remains quite poorly.

Isaac Cunningham caught a very large ground hog in a steel trap one night last week. He weighed above

"Father, I'm Glad You Smoke Duke's Mixture"

Before we tell you about the boy and his air rifle, we want you to hear about Liggett & Myers Duke's Mixture—the tobacco that thousands of men find "just right" for a pipe—the tobacco that makes "rolling" popular.

Liggett & Myers

**Duke's Mixture**

This favorite tobacco is fine old Virginia and North Carolina bright leaf that has been thoroughly aged, stemmed—and then granulated. It has the true tobacco taste, for the very simple reason that it is *Duke's* tobacco.

Pay what you will—it is impossible to get a purer or more likable smoke than Duke's Mixture. It is now a Liggett & Myers leader, and is unsurpassed in quality.

In every 10 sack there is one and a half ounces of splendid tobacco—and with each sack you get a book of cigarette papers FREE.

A little child of Mrs. Pennington, died of diphtheria Saturday morning. She lives near Dennis and this

is the second death that has occurred from the same disease. As far as we have been able to learn the facts a number have been exposed and there is no quarantine. An ounce of prevention is worth a pound of cure.

Abelom Jordan a leading merchant and politician of Advent, W. Va., and John Hackney, a stock merchant of Clacore, W. Va., have been spending a few days with relatives and friends here. Mr. Jordan's hair is beginning to whiten but he says that he is as young as he was fifty years ago. He says that there has been wonderful improvements made since he tracked the bloom, bear and deer through the hills of East Fork, Catt and Dry Fork. Many a wild turkey has he shot and he says that his nerve is as true and his sight as keen as they were in ante-bellum days. May he live and enjoy many more happy years is the wish of.
